

Location of T-16 and T-17

Change in soil conditions at T-16

Pipe discovered at T-16

Inside pipe discovered at T-16

Location of T-11

Product encountered in the trench outside the T-11 footprint

Location of T-21, T-22 and T-24

Northeast sidewall of T-21 excavation on April 20, 2010

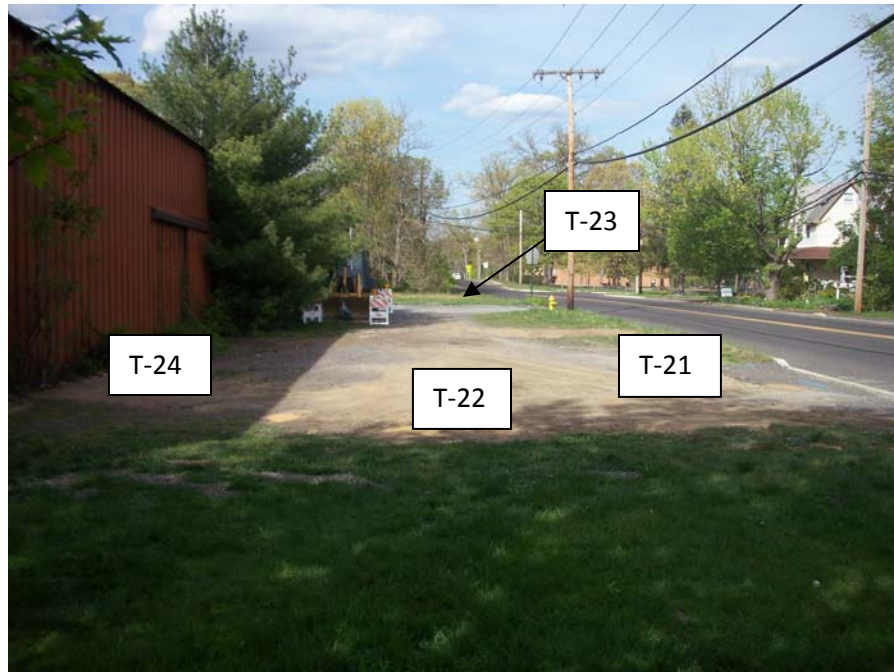

White sticky material found in T-22 excavation on April 20, 2010

Black sticky material encountered in the T-24 excavation on April 20, 2010

Location of T-23

Concrete and wood encountered on top of the slab in the T-23 excavation

Slab located at the bottom of the T-23 excavation

Location of T-31

Top of UST in T-31

Location of T-35

Foundation and slab in T-35

Pipes located between slab and foundation in T-35

Blackish material under eastern corner of concrete slab in T-35

Location of T-48

Excavation sidewall in T-48

Location of T-54

Top of the T-54 structure cut open

Compartment inside the T-54 structure

Pipe entering/exiting the T-54 structure

Side of the T-54 structure

Green discoloration in the vicinity of T-54

Location of T-59

Concrete and water in T-59 excavation

Location of T-60

All of the red material found in T-60 excavation

Pipe found in T-60

Location where red
material was found
